UR-George Freeman
YR1- Martin Lopez
YR2-Genevieve Kearney
YR3-Olivia Mann
YR4- Joseph Hopper
Seniors- Verity Highe

Year 3 Trip to Wandsworth Museum "Life before the Romans"

On Tuesday 25th November, Year 3 visited the Wandsworth Museum to reinforce their topic about 'Life in the Stone Age Britain.' The children worked in groups and were engaged in several 'Hands on' activities. They examined artefacts and compared them with those used during the Iron Age. They explored different periods of Stone Age history and had other wonderful games.

It was a great and rewarding experience for the class, and they thoroughly enjoyed it.

Miss De Gale

Ready, Steady, Dough

Lower and Upper Reception had so much fun discovering and exploring solids, liquids and gases. They made primary colored playdough and then mixed them together, predicting what colours they could make.

Mikhil said 'I like making the playdough, I mixed red and blue which made purple'

Stanley said 'I like making playdough it was lots of fun. Oil is a liquid and flour is a solid.'
